

Commercial Fire and Security Systems

DT series sensors

SD 323 Series sensors are CE, GOST, EN-54-5 approved and manufactured according to UL and ISO 9001 standards.

The Rate of Rise/Fixed temperature combination Heat Detector

The range includes:

- DT-4323-2 2 wire Rate of Rise/Fixed temperature Heat Detectors
- DT-4323-2 LED 2 wire Rate of Rise/Fixed temperature Heat Detectors with remote LED indicator output
- DT-4323-4 4 wire Rate of Rise/Fixed temperature Heat Detectors
- DT-4323-2 LED 4 wire Rate of Rise/Fixed temperature Heat Detectors with remote LED indicator output

Product Features

Interchangeable 2-Wire and 4-Wire Base
12 or 24 VDC Operation
135°F / 57°C Fixed-Temperature Heat Sensor
Auto Reset (AR) function (optional for 4-wire versions)

Detector Specification:

Standby Voltage	2-Wire:10~35V 4-Wire:12/24
Maximum Rms Rippi	25% of DC Input
Rate-Of-Risc	>20°F (6.7°C) Per Minute
Operating Temper	+32°F~100°F (0°C to~38°C)

EN-54
